## PROFESSIONAL EXPERIENCE

**Dell Technologies**                                                                                     **Eldorado do Sul, RS - Brasil**
**IT Academy Intern**                                                                                     **09/05 - now**

Training in partnership with Dell Technologies and PUCRS covering subjects such as C#, ASP.NET, Entity Framework Core, MVC Razor, SQL Server database, JS, TS, and GitHub. At the end, there's practical application development and after six months, I'll join Dell Technologies' team in Eldorado as an intern.

**Makter Equipamentos LTDA.**                                                                             **Canoas, RS - Brasil**
**Technical Documentation Analyst**                                                                        **11/22 - 04/23**

At the pavement machinery company, I played a crucial role within the team, focusing on synchronizing and updating the old ERP system to a more efficient platform. This involved developing local spreadsheets for internal data storage, as well as creating weekly reports based on this information. There I developed many manuals for the machines, and also a financial control with spreadsheets using Excel and VBA.

**Pontifícia Universidade Católica do Rio Grande do Sul (PUCRS)**                                          **Porto Alegre, RS - Brasil**
**Intern**                                                                                                **03/22 - 09/22**

With my colleagues, I was tasked with the management of the room availability schedules to physical experiments for the college professors, as well as maintaining the laboratory material in a good state. To achieve the objectives, I used to work with organizational systems, such as Trello and Excel spreadsheets, to ensure that all the material was in control, and to optimize the allocation of the rooms availability.

**Centro de Preparação de Oficiais da Reserva - Exército Brasileiro**                                      **Porto Alegre, RS - Brasil**
**Graduated as Reserve Officer**                                                                           **02/21 - 12/21**

The CPOR (Centro de Preparação de Oficiais da Reserva) is a Brazilian military educational institution dedicated to training young individuals to assume roles as reserve officers in the Brazilian Army. As an integral part of this formative process, students are constantly exposed to leadership situations in a variety of contexts. This approach aims to develop their leadership skills, ability to make decisions under pressure, and aptitude for leading teams in diverse circumstances. At CPOR I did public presentations to develop my public speech skill. And also always working in groups, we did daily missions as well as field exercises to practice our team work.

## EDUCATION

**Pontifícia Universidade Católica do Rio Grande do Sul (PUCRS)**                                          **Porto Alegre, RS - Brasil**
*Bachelor's degree in Software Engineering*                                                               **2022 - 2027**

**Colégio Salesiano Dom Bosco**                                                                           **Porto Alegre, RS - Brasil**
*High School Graduation*                                                                                   **2020**

## LANGUAGES

**Brazilian Portuguese**                                                                                   **Native**

**English**                                                                                                **Advanced**

## ABILITIES

- C#, Java, Javascript, Typescript, Python, VBA, Excel
- ASP.NET, .NET Maui, EntityFrameWorkCore (EF Core), MVC Razor
- SQL Server, PostgreSQL, OracleSQL, SQLite, MongoDb
- Angular, React
- Docker, Git, Github
